PROJECTS

Library (Freelance)

[GitHub](#)

React, JavaScript, CSS, Bootstrap, ContextApi

React for component structure, JavaScript for functionality, and CSS/Bootstrap for styling and layout. You're Leveraging Context API for managing global state across components. The goal is to build a modular, reusable Component library with a clean and efficient design.

Portofolio

[GitHub](#) || [Live](#)

NextJs, Tailwind CSS, JavaScript,

Developed a dynamic web application that displays a list of games and provides detailed information about each Game using HTML, CSS, and JavaScript. Incorporated Object-Oriented Programming (OOP) principles to Structure the code efficiently. Utilized an external API to fetch game data.

Movie App

[GitHub](#) || [Live](#)

Redux , React, JavaScript, CSS, Bootstrap

A movie app using Redux, Redux manages the state, React Bootstrap ensures a responsive Design and an API allows users to search for and view movie details, and manage their favorite.

Product App

[GitHub](#) || [Live](#)

React, typeScript, tailwind Css

Displays product details such as title, description, price, and available colors. It provides edit and remove Buttons, triggering functions passed via props to handle these actions. It also uses utility functions for text Slicing and price formatting, along with child components for colors, images, and buttons.

E-commerce

[GitHub](#) || [Live](#)

F-React, JavaScript, CSS, Bootstrap, Context Api

G-Developed an e-commerce application using React, CSS,JavaScript, and Context API. Implemented React's Component-based architecture. Combined with CSS for styling and JavaScript for functionality.

TECHNICAL SKILLS

- **Frontend Development:** Reactjs, Nextjs ,TypeScript, JavaScript (ES6+), HTML5, CSS3
- **UI Frameworks & Libraries:** Tailwind CSS, Bootstrap
- **State Management:** Context API, Redux, React Query
- **Form Management:** React Hook Form, Formik, Yup
- **Version Control & Deployment:** Git, GitHub, Vercel

- **Design & Tools:** Responsive Design, Figma, VS Code, Chrome DevTools
- **Best Practices:** Clean Code, Clean Architecture

Soft Skills

- Problem-solving, attention to detail, time management
- Effective communication, teamwork, adaptability
- Self-motivated learner with strong analytical skills

EDUCATION

Menoufia University, Faculty of Computers & Information

Menoufia, Egypt

B.Sc. Computer Science

2020-2024

Relevant Coursework: Data Structures, Algorithms, Database Management, OOP, Software Engineering.

Route Academy

Cairo, Egypt

Frontend Development Diploma (React.js)

2024

Comprehensive training in modern frontend development with React.js.

Industrial Training Institute(ITI).

Menoufia, Egypt

Front-End Angular.

2023

Industrial Training Institute(ITI).

Menoufia, Egypt

Desktop Application.

2022
